

## THE WORLD OVER

SKIRTS ON UP N'UP THIS YEAR

CHICAGO—Skirts, to be fashionable, will be shorter this fall. Fourteen inches from the floor will be the approved length, while 16 inches "would be quite daring," said a Chicago stylist recently.

The 14-inch length represents a hike of about an inch above spring fashions, and hats will have higher crowns and be worn generally off the face, exposing the brow. Some waistlines will be higher.

### SONS OF R. PELLETIER DROWN

Dispatch Monday night from McMann, Alberta, in the southern Peace River District, said that two sons of Ross Pelletier, Social Credit member of parliament for Peace River, were drowned in the Smoky River about three miles from Watino. The bodies were recovered and brought to Falher, Alta.

### RANGER WINS FIRST TWO RACES

NEWPORT, Aug. 3.—Harold Vandenberg's Ranger Monday established himself as a faster boat in light water on and off the wind as she took the second of a best-of-seven races for the America's Cup from T.O.M. Southey British Challenger. Endeavour II. The big American sloon was easily on Monday as it did in the first race of the series, and Bonnet, which was granted.

### MRS. A. HAUTMANN RETURNS

NEW YORK—Mrs. Anna Hauptmann widow of Bruno Richard Hauptmann, executed kidnaper of the Lindbergh baby, came back from Germany on the Bremen Monday and said she was "more convinced than ever of her husband's innocence."

### NORMANDE WINS NEW RECORD

NEW YORK—The French liner Normandie, arrived off Ambrose Light early Monday with what Capt. Pierre Thoreux radiated was a new record for the east to west crossing of the Atlantic—three days, 23 hours and two minutes from Bishop Rock, Eng. French line officials said the crossing bettered the old mark of four days six minutes and 23 seconds, set by the Normandie March 22. During one day of the crossing Capt. Thoreux steered the Normandie steamed 781 miles, an average of 31.24 knots.

### TWEEDSMITH REACHES ARCTIC

AKLAVIK, N.W.T.—Lord Tweedsmuir, Governor-General of Canada, late Monday night reached the western Arctic capital, ending the river voyage of his northern adventure by establishing an all-time record by waterways. From Aklavik his Excellency will go to Herschel Island in the Beaufort Sea by airplane. His

VOLUME 16; NUMBER 27.

## WHEAT CUTTING WILL COMMENCE IN DISTRICT BEFORE END OF WEEK

Cutting of Wheat Will be General in Another Ten Days

Harvesting of the crop of wheat in the Carbon district will commence this week, if hopes of many of the farmers are realized, although it will be ten days or more before wheat cutting is general.

Rain over the week and delayed the grain for a few days, but warm weather now is bringing the crop to maturity early this year.

It is reported that many fields of wheat are now ready for the binder in this district, although with the combine rapidly gaining favor, the grain will be left for another week so that it will have less with little difficulty.

There will be some real good crops in the vicinity of Carbon this fall, although on some of the fields that have been sown during the past week, the yield will be light. Stubble crops will be better than average owing to the fine rains this summer.

## ROBERT WISE SOUTHERN JUNIOR TENNIS CHAMP

Robert Wise, late of Carbon, won the Junior Championships at the Southern Alberta Lawn Tennis Championships held at Lethbridge last week. He was also in the final of the Senior Championships, losing in a four set match to Mr. Whitehead of New Jersey. U.S.A. Wise had defeated Ronald Coleman in the quarter-finals and Tim Stark of Calgary in the semi-finals.

Robert and Harold Wise will be competing in the Alberta Provincial Championships in Calgary which commences on August 2nd. A number of Carbon juniors players are also entered, namely, Francis Poon, Miss Anna Lemay, Miss M. Ramsay and Gordon McLaws, of Bassano, who has been training at the Carbon courts.

### POSSIBLE CARRYOVER, 40,000,000

WINNIPEG—Canada entered the new crop year Sunday with prospects of its smallest wheat carryover since 1922.

While no official estimate of the carryover has been announced, Board of Grain Commission statistics indicate a carryover of less than 40,000,000 bushels of wheat at the end of last crop year, closing Saturday, July 31st.

Last figures released by the Board return trip to Edmonton, approximately 1,600 miles south of Herschel, will be made by air, and will be the longest flight ever made by a Canadian governor-general.

## CARBON PLAYERS WIN FINALS IN OLDS TOURNAMENT

Allan Birch and Miss Anna Lemay of Carbon defeated N.E. Nash, Carbon and Miss H. Masterson, Trochu, 6-0, 6-3, in the postponed final of the Mixed Doubles Lawn Tennis Tournament of Olds, held on June 2nd. The final was played on July 30th at Carbon, as three of the four players were Carbon residents.

## BANK OF MONTREAL REGULAR CROP REPORT

General—While crop prospects have improved in Alberta and a betterment is noted in the Saskatchewan field situation, crops over a wide area in Saskatchewan will be largely a total loss, with low yields in districts where conditions have been favorable.

Quebec and Ontario favorable growing conditions prevail generally and prospects are good. Cutting of fall wheat is well advanced in Ontario and Threshing has commenced in southern districts, with yields and quality that are variable owing to damage from excessive moisture. The Maritime provinces have experienced continued hot weather during the past week, with benefit to all growing crops. Through-out British Columbia dry weather has prevailed and excellent crops of grains, vegetables and fruits are expected.

Alberta—Ideal growing weather and general rains except in the northeast, have been very beneficial to late-sown crops. Crops in the east central area and the extreme southeast are very light. Slight hail damage has occurred in the central and northeast areas. The pastures and feed situation has improved. Irrigated croplands are in good condition.

Saskatchewan—Some fairly good crops remain in parts of the north-central and northwestern sections, but indications are that yields will be variable. Feed crops and pastures have improved in the districts where rain has fallen, but further good rains are urgently needed throughout the province. Grasshoppers have caused some damage.

of Grain Commissioners on July 23 showed that last year was 128,703,208 bushels and in 1926 was 40,130,363.

## Our Farm NewsLetter

Contributed by B. Leslie Emslie, C.D.A. (Glas.) F.C.S.

### 'Chemistry Aids in Weed Control

Calling chemicals to aid in the destruction of weeds on the farm is regarded by some as an artificial substitute for good cultural practice, and this opinion is too often justified. Yet there are weeds which cannot be resisted all attempts at their control by ordinary means and, like desperate diseases, require desperate remedies. Dependent on circumstances, the choice of a chemical herbicide may be made from a wide variety of substances. Sodium chlorate is one which destroys all applicable only on areas such as the sides of railway tracks, hard tennis courts, walks and driveways. But its use in the field is not excluded, and sometimes an impatient patch of sow-thistle may be prevented from spreading by a timely spraying with sodium chlorate.

### Selective Herbicides

There are other herbicides which have more or less selective action, attacking weeds while sparing bona fide plants. This applies when the former have broad, rough leaves, the latter fine smooth leaves such as characteristic grasses and young grain. An example of this selective action is found in the use of copper nitrate as an eradicator of dandelions in lawns, a method recommended by Dr. G.P. McRostie, now professor of field husbandry, O.A.C., Guelph, whose laboratory experiments in Manitoba led to the discovery. Application of the copper nitrate solution after the middle of July and repeated a month later

## OBITUARY

MRS. CHARLES W. GRAY

Mrs. C.W. Gray, wife of one of the hardware merchants, passed away at her home in Carbon on Sunday, August 1st, following a lengthy illness.

Deceased was born in Ontario and came west to Lethbridge, Alberta in 1900. Fifteen years ago, together with her husband, she moved to Carbon and has been a resident here ever since.

The late Mrs. Gray was 73 years of age and besides her husband she is survived by one daughter, Mrs. B. Bertrand, Calgary, and three grandchildren.

Funeral services for Mrs. Louise Gray were to have been held today, Thursday, from Jacques funeral home, with Rev. C.B. Oakley in charge. Interment will be made in Burnside cemetery.

### ANTHONY H. MACDONALD

Anthony H. MacDonald, well-known resident of Granger, died Sunday morning at his home. Deceased was 77 years of age and was born at Middle Rivers, N.S., coming west 27 years ago and taking up residence at Granger. Previous to that he resided in California for a period of 22 years.

He is survived by his widow; two sons, William H. at home, and Donald G., Chicago; a daughter, Mrs. C. Johnson, Oakland, California; and four grandchildren.

Funeral services for the late Anthony MacDonald will be held at 2 p.m. Thursday at Foster and Foster funeral home, without cost, to be made in Burnside cemetery.

### WHOSE OX IS GORED

A Communist agitator rode into Hyde Park and after leaning his bicycle against the railing, mounted a soap box and proceeded to address the crowd.

"If your family is hungry," he shouted, "raid a shop and take food for them, and don't care what anybody says. If your wife hasn't got a can, pick the best fur coat you can see, and ignore the consequences."

After several more minutes in this strain, he dismounted from his soap box, and his next words were: "This is the scoundrel who took my life!"

### Mrs. C. Priesen and daughter

returned home on Saturday after two weeks holiday spent in Edmonton.

## 308 TONS OF HOPPER POISON

The Carbon grasshopper bait mixing station has had a busy season this year and according to W.J. Poole, who is in charge of operations, a total of 308 tons of bait have already been distributed from this point.

Owing to the continued menace of these pests the municipality has decided to keep the local bait mixing station open for another two weeks or more, depending on the spread of the grasshoppers.

Denounce your merchants because they are trying to make a living here. Glory in the downfall of a man who is in charge of operations, a total of 308 tons of bait have already been distributed from this point.

Owing to the prevalence of grasshoppers it was decided to keep the bait mixing station at Carbon open for another two weeks or more, depending on the spread of the grasshoppers.

The weed inspector was instructed to see that farmers destroy weeds on the roads, adjoining their land, to comply with the terms of the Noxious Weed Act.

Mayor Garrett and Councilor Jas. Flores, of the Village of Carbon attended the meeting and requested that the Council hire the Municipal grading outfit to do the work on the roads, and the Municipal Council agreed to do this at a convenient time this year.

A few cases of direct relief were considered on account of the condition of crops in the south-eastern portion of the Municipality.

The Secretary was instructed to notify the grain elevators concerning amounts owing by recipients of relief seed grain, fuel oil and lumber, in accordance with the Agriculture Relief Advances Act.

Accounts for road work, grasshopper control and relief were dealt with in the usual way.

Call your merchants and the place you live the nearest on earth. Always have your mind firmly made up before you go into any of your home stores, that you simply can't do anything to suit you there.

And now, after having religiously done all the above, you ought to have the satisfaction of shortly seeing your community added to a small burg, with possibly a general store, a service station or two, and a post office. All this may not have enhanced prosperity values or living conditions, but you don't care.—Exchange.

## WEEKLY COMMENT ON THE WORLD OF WHEAT BY H. G. L. STRANGE

Sir Charles Saunders is dead. His memory, and the fruits of his labor, however, will live for uncountable years.

Aided by the efforts of his brother, Percy, and his father, Dr. William Saunders, Sir Charles, in 1907, originated the famous Marquis wheat.

Marquis came at an opportune time when the western wheat market was extending to the north, so that sterling variety, Red Fife, was becoming freighted in the late summer.

Marquis is equally noted as a parent for breeding numerous. The famous variety, Revival, the rust-resistant Thatcher, and other valuable strains, being direct offsprings from it.

Sir Charles was one of those true agricultural scientists, of which Canada is fortunate in having many in her service. Canada owes a great debt to the improvement of agriculture, to the increasing of the farmer's welfare, and to making available to the people of the world a plentiful food.

Millions of people, the world over, who have never heard his name, are enjoying the benefits of his work, and his stable estate and economic structure of the nation itself.

These affirmations are not of the "sales" type but are of an educational character, stressing the strength and security of the institution of life insurance in Canada, its great value to individual men, women and children in times of financial stress and strain, and its stabilizing effect on the economic structure of the nation itself.

## LIFE INSURANCE ADVERTISING

The editor was in receipt this week of a portfolio of Life Insurance Advertising carried in the various newspapers and magazines in Canada during the past year. The Chronicle being among the papers receiving this patronage.

The publicity is sponsored by the Canadian Life Insurance Officers Association and is a fine example of the institutional form of advertising that might be profitably followed by other financial and commercial interests of the country.

## WILL KEEP BAIT MIXING STATION HERE OPEN ANOTHER TWO WEEKS

All Farmers Must Destroy Weeds on Roads Adjoining Land

The regular monthly meeting of the Council of the Municipal District of Carbon No. 278 was held in the municipal office, Carbon, on Tuesday, August 3rd, with all councillors present.

Owing to the prevalence of grasshoppers it was decided to keep the bait mixing station at Carbon open for another two weeks or more, depending on the spread of the grasshoppers.

The weed inspector was instructed to see that farmers destroy weeds on the roads, adjoining their land, to comply with the terms of the Noxious Weed Act.

Mayor Garrett and Councilor Jas. Flores, of the Village of Carbon attended the meeting and requested that the Council hire the Municipal grading outfit to do the work on the roads, and the Municipal Council agreed to do this at a convenient time this year.

A few cases of direct relief were considered on account of the condition of crops in the south-eastern portion of the Municipality.

The Secretary was instructed to notify the grain elevators concerning amounts owing by recipients of relief seed grain, fuel oil and lumber, in accordance with the Agriculture Relief Advances Act.

## For The Future

"Oh, Death, where is thy sting, oh, Grave, thy victory!" All Christian denominations teach that there is a life hereafter and that death is merely a translation for the soul of the individual from this sphere to another where a brighter existence awaits, no matter what form it may take. Few there are who do not subscribe to this belief. In fact, this hope and belief is the basis that largely governs, sometimes consciously and sometimes unconsciously, the course of thought and action of the great majority in the Christian countries of the world throughout their earthly lives.

It is this conviction which sustains the dying in their last earthly moments and which gives courage and hope to the bereaved relatives and friends after the first impact of grief and sorrow at temporary severance has passed.

Assuming this belief to be well founded, and bearing in mind it is one of the tenets of all the Christian religions, it would appear that the natural, the inevitable concomitant of death and burial is reverent acquiescence in the thought that one more has passed to better and brighter scenes and a more perfect life.

And this thought surely should find expression in the surroundings of the dead—the grounds in which are interred the mortal remains of those who have passed on—the cemeteries of the countryside and of the cities and towns.

Yet, how often one hears the comment: "I would not like to be buried here," as the speaker gazes over a wind-swept, bleak hillside, dotted with tombstones, some of which are old and weathered or haphazardly placed, a few perhaps garished with bunches of withered flowers, the entire site devoid of shade or beauty, except one or two sickly trees and a luxuriant growth of weeds.

Black, bare, unkempt and desolate, such places can hardly be said to connote the thought that the cemetery is the symbol of the entry to a new and glorious life, but rather the termination of a drab career.

It was a picture such as this which confronted Hubert C. Eaton when a banking institution with which he was connected acquired a Los Angeles cemetery by mortgage foreclosure in 1917. "Eaton shuddered at the gloom and ghouliness of the disordered graves," he has written in an article relating Eaton's experience in the Reader's Digest. "This, thought Eaton grimly," quoting Mr. Barton, "is the sacred ground of a so-called Christian people. Over everyone who has been buried here, there is a promise of eternal life. Where was any sign of faith here? The rotting trees, the unkempt lawn, the gloomy monuments of all shapes and sizes—everything spoke of Death."

Eaton resolved to make over the cemetery to make it symbolic of the credo: "I believe in a happy Eternal Life." He added another 150 acres to the site. With the permission of relatives, he removed tombstones and substituted for them small artistic, bronze plaques laid flat in the grass. Where no heirs could be found or in the few rare instances where permission was not forthcoming, he arranged plaques to hide the remaining tombstones. He secured the advice of landscape architects, planted the entire property like a park, introduced beautiful statuary, and 20,000 varieties of flowers are already adding their fragrance and beauty to a scene of loveliness.

Provision is made for perpetual care, says Forest Lawn, which Mr. Barton, "is not a place where only the rich can afford to lie. A grave may be bought for \$45 and a funeral there costs as little as \$75, including all services."

"People visit Forest Lawn as they would a lovely park, quite naturally at all times, all day long on the lawns children play, the weary come to sit and rest, artists come to sketch its beauties. But especially do they seek it out when confronted with the death of a loved one. Here, they find that no matter how many have been performed in the little churches; parents think there is nothing sadder about bringing their babies to be baptized here. Forest Lawn offers us evidence that a cemetery need not be a place of gloom and despair, but a garden where the rich and the true Christian conception of a happy eternal life," says Mr. Barton.

In this country which has no access to great wealth and where population is comparatively sparse, the cost of construction and maintenance of such cemeteries as Forest Lawn might not be feasible in small communities, but much might be done with voluntary communal labor and the use of native trees and shrubs to convert bleak and dreary cemeteries into places of rest and beauty, emblematic of the faith of the residents, with the expenditure of little or no money.

In some communities a good start has been made in this direction and no doubt others will follow suit and the time will come when practically every cemetery in the country will at least be neat and tidy and many will be beauty spots.

Such places will help to ease the death of some of its sting and the grave of its victory.

## Purchases Totem Pole

**Duchess Of Kent Liked Toy Carved By Esquimaut Indian**

The Duchess of Kent, her first totem pole at the Canadian booth at the International Red Cross Bazaar in London. It was carved by Louis Chelley, Songhe Indian of Esquimaut, B.C., and caught her eye when Mr. Vincent Mackenzie, introducing them in charge of the event.

Centre of attraction at the Canadian booth were two huge dolls dressed by nurses at the City Hospital and the City Hospital School of Nursing in Saskatoon. At other stalls were presents sent from nursing associations from all over the world to be sold by stallholders dressed in traditional costumes of more than twenty countries. The proceeds are to aid in raising the standard of nursing by augmenting the scholarship fund for nurses from abroad.

The use of papyrus paper in olden times was brought in an end by the introduction of Chinese linen paper.

Irish refugees are being housed in a camp at Gdynia, Poland.

**BLACKHEADS**  
Get rid of your blackheads and pimples by this one simple safe and sure method. Get two small pieces of powder from any drug store, sprinkle it on a hot wet cloth, rub the face gently—very blackhead will be gone. Have a Hollywood complexion.

The best way to serve bread pudding is to place it in a pan, stop to the back door and say: "Chick! Chick!"

Motorcycles in the world now total 3,100,000, according to a European estimate.

## Keeping Up With Times

**Ability To Make Changes On Secret Of Business Success**

To-day we have to put on running shoes to keep up with the procession. Improvements are coming so fast that we can hardly keep track of them.

Nelson Jackson says: "You cannot do to-day's job with yesterday's methods and be in business to-morrow." There is much truth in that.

A writer for the Saturday Evening Post once asked Henry Ford—"What about bringing stability to the motor industry?" "Stability," exclaimed Ford, "is a dead fish floating downstream. The only stability we know in the country is CHANGE."

That was a fine answer. It was a complete answer to the Bolshevik theorists who say that industry must be stabilized by nationalization.

You can measure the efficiency of any business man by his list of improvements. If he has no such list, on paper or in his mind, then he is not efficient.

There are thousands of stabilized business men, still using the obsolete methods of thirty years ago. Most of them pass out, and others barely keep alive, and make shillings when they might be making pounds.

A judge asked a woman: "Is your husband steady?" "Steady," he replied, "if he were any steadier, he would be dead."

The purpose of every man should be to keep out of the graveyard until he dies. While he is alive, he must act and change and do to-day something better than he did yesterday. There are now as many thinkers and inventors and scientists in the world that the whole of us must keep moving.

At least once a year a man should look at his whole business suspiciously and ask himself: "Am I still using anything that is obsolete—anything that is holding me back?"

At least once a month he should ask— "What improvement can I make in my methods or my equipment, to increase the net profit of my business?"

Most of us want security, and too many of us think that change means risk. The fact is that nothing but constant improvement can make any business safe. So, thank God you are alive. Keep moving. Stay something. Think of something worth while. Do it now.

## THE WORLD MOVES.

## Lost Money Through Greed

**English Farmer Wanted Exhibition Prize For His Potatoes**

The following story by W. L. Clarke appeared in the Windsor Daily Star.

This argument that is going on in England about how many potatoes fit in a ton, David Lloyd George's plant reminds us of the way the potato market was regulated during years when Mr. Lloyd George was Prime Minister.

Farmers of England made a killing just like the farmers of Canada. With good supplies short and prices soaring the Government took steps to curb profiteering. It was decreed that potatoes could be sold for no more than eight pounds per ton.

One farmer had a crop of many tons of the potatoes, when a likely-looking purchaser came along. A conversation something like this followed:

"These are very fine potatoes you have, Mr.—. I'll give you twelve pounds per ton for them, and take the lot."

"You will, eh, well I'll see them all not in the ground before I take a penny less than twenty pounds per ton."

"Well, Mr.—. I was trying to give you a break. I would have given you twelve pounds for them if they are fine potatoes. But, if that is the way you feel, I'll take the whole lot at eight pounds. Here are my Government credentials and these potatoes are now under seizure."

The man showed his papers, and in a short time a detachment of soldiers mounted guard over the potatoes. They were confined at the eight pounds per ton price, the greed of the farmer doing him out of four pounds per ton.

A detour is the roughest distance between two points.

## HORSES WORK BETTER

When fed from Borden's Malted Milk, horses work better. Borden's Malted Milk is the only horse feed that is as good as the horse's own milk.

## Just In Day's Work

**United States Aviator Put Bombing Plane Through Severe Test**

Down in New York State a flier, clad in a heavy leather suit like armor, performed a series of the most thrilling stunts possible any airman has ever attempted, though he did not do them as stunts, but to actually test the strength of a new United States bombing plane.

He climbed to a height of 20,000 feet, invisible to the naked eye, and then watched through glasses by hundreds of interested scientific men. When he had reached that height he pulled the throttle wide, and with the engine at full speed, drove straight down for the earth, a dive of 15,000 feet or nearly three miles, diving to within a mile of the ground. At that point with a speed of from 500 to 600 miles an hour, or 750 feet a second, the question was whether he could straighten out without tearing the machine to pieces.

The practiced aviator roaring straight down at that phenomenal speed, straightened out, the ship came through safely, and the makers were jubilant. The sensation at the turning point, they said, must be something like driving a car against a stone wall at 50 miles an hour. Twelve times the aviator did the dive, and each time the ship came safely through. Landing it the aviator climbed out, monosyllabically said "Nice ship," got into his car and drove away.—Halifax Chronicle.

## SELECTED RECIPES

### CHILI SAUCE

- 24 large ripe tomatoes
- 8 large onions
- 3 head celery
- 1 cup light brown sugar
- 1 cup Crown Brand Corn Syrup
- 1 teaspoon white pepper
- 1/2 teaspoon cayenne pepper

Method: Peel and slice the tomatoes, combine with chopped onion. Cover with salt and let stand overnight. Add chopped peppers and celery. Mix with a spoon. Season, Crown Brand Corn Syrup and seasonings. Add vegetables and cook slowly for 5 or 6 hours, or until thick. Bottle hot. Makes six pints.

### His Preference

A wealthy Irishman was proud of the opportunity to "show off" on the occasion of a visit to London of one of his compatriots. He invited him to dine at a fashionable restaurant, and seated at the table led off with "Waiter, a couple of cocktails."

His friend, expanded him with astonishment, and whispered audibly, "Waiter, if you don't mind I'd rather have a wing."

The woodcock can move the tip of its upper mandible in such a way that the bill works like a pair of forceps.

The ports of Philadelphia, New Orleans and Baltimore are each more than 100 miles from the open sea.

There are over 400 kinds of lilacs growing in the grounds of the Arnold arboretum of Harvard University.

## Had Two Good Reasons

**Ramsay MacDonald Tells Why He Refused The King's Honors**

Ramsay MacDonald declined two honors recently, when he was offered an earldom by the King, and was also offered the Order of Merit. Mr. MacDonald's decision not to become a Peer was made on the ground that his place in history was as Labor's first prime minister, and that a peerage would confuse the issue. With regard to the Order of Merit, he had always taken the stand that this should not be given for political services and he was not aware of any other kind of service on his part which would justify it, the Daily Sketch reports.

## The Hard Part

Someone wrote to Mark Lemon and asked for instruction in the writing of funny paragraphs. Lemon replied: "It is not at all hard to write, funny paragraphs. All you have to do is to procure a pen, some paper and ink, and then sit down and write them as they occur to you. It is not the writing, but the occurring that is hard."

There is a lot of preaching about cultivation, fertilizers and soil care, but what really makes crops is a good rain in June, says the Farmer's Advocate.

**GUM-DIPPING** is a patented Firestone process not used in any other tire. With it every hundred pounds of cord fabric absorbs eight pounds of rubber and, as a result, every fibre, every cord and every ply of a Firestone tire is completely insulated with pure rubber to counteract internal heat and friction—the greatest enemy of the tire.

Due to this extra process, Firestone Gum-Dipped Cords have 58% longer flexing life. Yet you do not pay one cent more for this extra value. And you also get 2 Extra Cord Plies under the tread and the Firestone Scientifically Designed Safety Tread.

TOWN & COUNTY  
Personalographs

Mr. and Mrs. C.H. Smith left last  
week on their annual vacation.

Mr. C. Oliphant was a Calgary vis-  
itor last Thursday.

Mr. and Mrs. Eddie Selens of Ed-  
monton spent the week end in town  
and returned to the northern city on  
Monday.

Leon Embree is visiting in Edmon-  
ton with his uncle and aunt, Mr. and  
Mrs. Aaron Klassen.

Mrs. B. Bertrand of Calgary spent  
Sunday in town.

Mr. C.W. Gray left on Monday for  
Calgary.

Const. and Mrs. Shaw and son, Bill,  
returned last week from a holiday at  
Banff and other places of interest.

Syd Wright has had the door in his  
service station changed from the east  
to the south.

Mrs. C. Reed, Rosalie and Alice left  
on Wednesday for Banff.

Mr. W.A. Brainerd was a Calgary  
visitor on Wednesday.

Miss Mable Ramsay left last week  
for Calgary.

The Three Hills Capital issued a  
special edition in commemoration of  
the town's twenty-fifth anniversary on  
July 29th, and the issue was well-pa-  
tronized by the local business places.

Perry Johnson motored to Calgary  
on Tuesday and returned Wednesday.

## CARD OF THANKS

I wish to thank all friends for their  
kind sympathy, floral tributes and  
assistance during our recent bereave-  
ment.

C. W. GRAY

Mr. and Mrs. W. Poxon, who left  
a couple of weeks ago for a six-week  
visit to Chicago, St. Louis and other  
Eastern states, arrived in Chicago,  
but were unable to continue their  
journey owing to the sudden illness  
of Mrs. Poxon, who was admitted to  
a hospital where she will undergo an  
operation.

Harold Wise returned to Calgary  
on Friday after spending the past few  
weeks at the home of his grandpar-  
ents, Mr. and Mrs. Alex Reid.

The Carbon Girl's Softball Club  
took in the Rockyford Sports last  
Wednesday and were beaten in the  
first round by Carleton, 12-5.

Mr. and Mrs. Frank Sherry and fam-  
ily returned on Monday from Pen-  
sance, Sask., and will again reside in  
Carbon.

Clarence Smith and Hugh Aitchison  
of Calgary spent a few days recently  
holidaying at the Cunningham farm.

Mr. and Mrs. Alex Goslet of Hart-  
ford, Connecticut, are visiting with  
their daughter, Mrs. Lemay.

Joe Silver left Saturday for Cal-  
gary, where he is spending a few days  
visiting with his parents.

Stay at the  
GROSVENOR  
IN Vancouver B.C.

## FOR MORE THAN THIRTY YEARS

For more than thirty years this farmers' company  
has been giving satisfaction to western farmers in hand-  
ling their grain. During that time it has also been of  
great assistance in improving conditions under which  
farmers do business.

DELIVER YOUR GRAIN TO

**UNITED GRAIN GROWERS LTD.**  
ELEVATOR AT SWALWELL

"Somebody  
to see you!"

IF EVERYBODY with something to interest you  
should come and ring your bell, what a nuisance  
it would be. Think of the swearing, jostling crowd,  
the stamping of feet on your porch and carpets!

Every week we know of many callers who come  
to see you. They never ring the bell—they don't  
take up your whole day trying to get your attention.  
Instead, they do it in a way that is most considerate  
of your privacy and your convenience. They adver-  
tise in your newspaper!

In this way you have only to listen to those you  
know at a glance have something that interests you.  
They make it short, too, so you can gather quickly  
just what you want to know. You can receive and  
bear them all without noise or confusion in a very  
few minutes.

In fairness to yourself look over all the adver-  
tisements. The smallest and the largest—you never  
can be sure which one will tell something you really  
want to know.

# YES SIR!

## WE APPRECIATE THEM

THE OTHER DAY WE ASKED A MAN FOR HIS PRINTING  
AND HE TOLD US:

"OH, OUR PRINTING DOESN'T AMOUNT TO MUCH. ALL  
WE HAVE IS A FEW SMALL ORDERS, AND NONE OF THEM  
EVER RUN INTO ANYTHING THAT LOOKS LIKE MONEY."

THOSE LITTLE ORDERS ARE THE KIND THAT MAKE  
OUR BUSINESS.

MOST OF OUR BUSINESS IS IN PRINTING LETTERHEADS,  
ENVELOPES, CIRCULARS, POSTERS, OFFICE FORMS, AND  
OTHER SMALL ORDERS.

WE APPRECIATE A SMALL ORDER AS WELL AS WE DO  
A BIG ONE.

SO, IF YOU HAVE ANY SMALL ORDERS FOR PRINTING,  
WE WANT YOU TO KNOW THAT WE ARE GLAD TO GET  
THEM. WE APPRECIATE THEM JUST AS MUCH—AND  
TAKE JUST AS GOOD CARE OF THEM—AS IF THEY AC-  
TUALLY AMOUNTED TO HUNDREDS OF DOLLARS.
